FEEDING DIRECTIONS

ADULT DOGS: Lone Star® Mini Chunks may be served moist or dry. Either way, it will provide your dog with complete, balanced nutrition. To serve moist, simply add one part warm water to four parts Mini Chunks. Stir until pieces become moistened. Feed while warm.

A dog should be maintained in good body condition and not allowed to become overweight. The food intake required to maintain good body condition will vary depending on age, activity level, environment and other stress factors. Consequently, the food requirement for each dog will vary, and should be adjusted accordingly. Use the standard chart below as a guide. Hardworking dogs or dogs exposed to cold weather may require 2-3 times these amounts.

WEIGHT	DAILY AMOUNT*
3-12 lb	1/2 - 1 1/2 cups
13-25 lb	1 1/2 - 2 1/4 cups
26-50 lb	2 1/4 - 3 3/4 cups
51-100 lb	3 3/4 - 6 cups
100 + lb	6 + 1/2 cup for every 10 lb over 100 lb

*Amounts are based on an 8-oz dry measuring cup.

Lone Star® Mini Chunks is formulated to meet the nutritional needs of normally active dogs. Quality ingredients are formulated in just the right amounts to provide everything dogs are known to need for complete and balanced nutrition—no supplements are necessary; even the most finicky dog will love the nutritious, crunchy nuggets.

Remember to provide plenty of fresh water in a clean container at all times. Regular veterinarian visits are recommended to ensure your dog's good health.

Feeding Tip: Changes in your dog's feeding habits should be made gradually. When changing over to Lone Star® Mini Chunks, first substitute small amounts of Mini Chunks in place of your dog's current food. Then over the next week to 10 days, increase the amounts of Mini Chunks while decreasing amounts of your dog's other food, until your dog has 100% Mini Chunks.

Calorie Content (Calculated): Metabolizable Energy (ME) – 3,300 Kcal/Kg (314 Kcal/Cup)
