

PET FOOD

HI ENERGY FORMULA

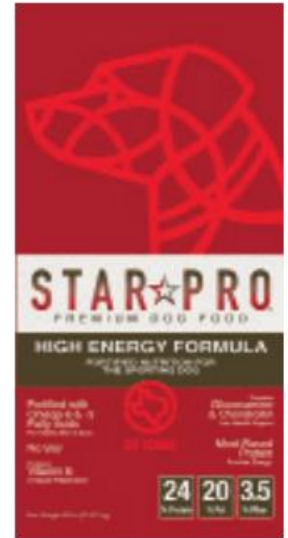

Fortified nutrition for the sporting dog.

FEATURES

- 1724 Kcal/lb
- 24% Protein, 20% Fat
- Meat-based protein
- No Soy
- Fortified with omega-3 and omega-6 fatty acids
- Contains Vitamin E – a natural preservative
- With glucosamine and chondroitin sulfate
- Star Pro® Hi Energy Formula Dog Food is formulated to meet the nutritional levels established by AAFCO Dog Food Nutrient Profiles for all life stages, including growth of large size dogs (70 lb or more as an adult)

BENEFITS

- Highly digestible – produces smaller, firmer stools
- Produces a healthy, shiny hair coat
- Higher energy – working dogs remain in top condition
- Nutritionally complete – no need to add supplements
- Supports healthy joint functions

*Not recognized as an essential nutrition by the AAFCO Dog Food Nutrient Profiles.

Calorie Content (Calculated): Metabolizable Energy (ME) – 3,854 Kcal/kg (437 Kcal/cup)

FEEDING DIRECTIONS

ADULT DOGS: The amount of food required each day will vary by breed, activity level, temperament, and climate, and should be adjusted accordingly using the chart below as a guide. In most cases, once-a-day feeding is sufficient. If your dog prefers twice-a-day feeding, feed 1/2 of the daily amount in the morning and the other 1/2 in the afternoon. If preferred, one part warm water can be added to three parts Star Pro® Hi Energy immediately before serving.

PUPPIES: Start puppies on moistened Star Pro® Hi Energy as soon as they begin to nibble on solid food (usually 3 to 5 weeks of age). While they continue nursing, keep moistened Star Pro® available at all times until fully weaned at 6 to 8 weeks of age. After weaning, Star Pro® Hi Energy may be fed moist or dry. Feed puppies up to 6 months of age all of the Star Pro® Hi Energy they can consume. If fed dry, Star Pro® Hi Energy may be kept before puppies at all times.

GESTATION & LACTATION: Consumption will vary; therefore, feed the amount required to maintain good body condition. Food may need to be available at all times. Water: Provide a source of fresh, clean water at all times.

| <u>Weight</u> | <u>Daily Amount*</u> |
|---------------|---------------------------------------|
| Up to 12 lb | Up to ½ cup |
| 12-25 lb | ½ - 1 ¼ cups |
| 25-50 lb | 1 ¼ - 2 ¼ cups |
| 50-75 lb | 2 ¼ - 3 ¼ cups |
| 75-100 lb | 3 ¼ - 4 cups |
| 100+ lb | 4 + 1 cup for every 25 lb over 100 lb |

*Amounts are based on 8 oz measuring cup

INGREDIENTS

Chicken by-product meal (source of glucosamine and chondroitin sulfate), ground yellow corn, ground whole wheat, chicken fat (preserved with mixed tocopherols), meat and bone meal, dried plain beet pulp, natural flavor, brewers rice, flaxseed, salt, fish oil (source of DHA), choline chloride, vitamin A supplement, vitamin D3 supplement, vitamin E supplement, vitamin B12 supplement, riboflavin supplement, DL-methionine, L-threonine, niacin, calcium pantothenate, menadione sodium bisulfite complex (source of vitamin K activity), folic acid, biotin, thiamine mononitrate, pyridoxine hydrochloride, sodium selenite, calcium iodate, ferrous sulfate, manganese sulfate, zinc sulfate, copper sulfate.

Changes to your dog's feeding habits should be made gradually. Remember to provide plenty of fresh water in a clean container at all times. Regular veterinarian visits are recommended to ensure your dog's good health. Pet food should be stored in a well-ventilated, dry area protected from rodents and insects. Pet food is perishable. Do not feed moldy or insect-infested food as it may cause illness or death.
